## Perkins GRABOXX™ Can, Model PT8200

The Graboxx is designed to quickly and efficiently grab and dump residential bins, allowing collection of an entire block in just minutes. The generous 4 cubic yard hopper readily accepts trash, bulky items and features lowered dump edges for hand loading when necessary. The patented slide action is centered with the load, leading to balanced support and longer component life. Designed with durability in mind, the Graboxx will reduce your downtime and maximize your productivity. Uses typical FL forks and joysticks found on most commercial FL vehicles, for easy interchange with existing gear.

## Specifications

Fits most frontloader forks and compatible with typical residential joystick controls.

Fully compatible to ANSI Type G Automated carts 30-96 gallon in size
